**FOUNTAINS OF WAYNE GUITARIST JODY PORTER RELEASES  
NEW SOLO ALBUM "PACIFIER"!**

New York, NY  
February 24, 2017

Fountains of Wayne's Jody Porter will release his 3rd solo album **PACIFIER** February 24, 2017. **PACIFIER** was written and produced by Jody and mastered at Abbey Road Studios in London. **PACIFIER** features performances from Fountains of Wayne drummer Brian Young on the first single "Valerie Sometimes" as well as members of Jody's band the Berlin Waltz. A multi instrumentalist, Jody sang lead vocals and played all instruments on the majority of the tracks. **PACIFIER** is a trailblazing blend of straightforward, modern rock and roll combined with Jody's masterful, atmospheric guitar textures and stream of consciousness lyrics.

Details on the release of **PACIFIER** and upcoming New York area shows to follow.

"I wanted to record it fast and not lose the vision, so there are a lot of first takes [on the album]. I've learned over the last two decades that you can lose the song by being a perfectionist. You've just gotta whip it up sometimes. It was a quick, fun album to make and probably my favorite of my solo albums. I'm waiting to put the *Pacifier* in your ears." - Jody Porter

"Fountains of Wayne guitarist Jody Porter's Brit-pop-leaning riffs and raw candor in his solo work, create a sound that his band has never achieved"

- New York Times

"By bridging the psychedelic approach of The Belltower with the relentless crunch of his guitar work in Fountains of Wayne, Jody has tapped into a broad spectrum of influences for a record that—both sonically and lyrically—transports listeners just a little bit closer to the sun's rays"

- Pop Matters
